

FOR IMMEDIATE RELEASE

EXPO CHICAGO
April 8 - 10, 2022
Navy Pier, Chicago
Booth 239

GRAY is pleased to participate in the 2022 edition of EXPO Chicago, with a presentation of works by artists from the gallery's Modern and contemporary programs, including Harry Bertoia, McArthur Binion, Suzanne Caporael, Jim Dine, Torkwase Dyson, Theaster Gates, Ewan Gibbs, Rashid Johnson, Alex Katz, David Klamen, Ellen Lanyon, Jim Lutes, Jaume Plensa, Richard Serra, Leon Polk Smith and Evelyn Statsinger.

For the EXPO Projects sector of the fair, GRAY will present *Hortensia*, 2020, a large-scale sculpture by Spanish artist, Jaume Plensa. Carved out of white Vietnamese marble and standing over 10ft tall, *Hortensia* depicts the portrait of a young subject with her eyes closed. Depicted in a state of serenity, *Hortensia* expresses the artist's ongoing interest in evoking quiet contemplation and the universality of the human condition.

GRAY's booth presentation will also include works by Evelyn Statsinger, whose solo exhibition, *Currents*, is currently on view at GRAY New York (April 8 - June 18, 2022), as well as a new ceramic sculpture by David Klamen which will be featured in the forthcoming solo exhibition, *Life Trophies*, opening at GRAY Chicago on May 5, 2022.

GRAY participates at Art Basel in Basel, Art Basel in Miami Beach, Art Basel in Hong Kong, Art Busan, EXPO Chicago, Frieze New York, and ADAA's The Art Show.
